Subject: Response Additional from Natasha

Dear Deb and Landcare Team,

As a Labor Member I refer to the letter from the Chief Minister in relation to the questions asked, with the exception of number 1 to which I would like to also add.

I support the work of our Rangers and will advocate for increased funding to help support the Casuarina Coastal Reserve. I know there is some work underway in understanding the costs associated with waste and maintenance. From my work as a local member I understand the changes over the years of what needs to be done in maintaining the Reserve and the funding requirements.

I've been a strong advocate for the reserve including being involved in the work to form it into a National Park.

I've been involved in the Rapid Creek Landcare Group since 2012 when I was first elected. I have attended working bees, shared information with the local community, encouraged school groups to participate with the Rapid Creek landcare group and supported the organization as a local member through my electorate office. I've also been involved in implementing junior landscape programs at my local childcare center when my children attended.

I thank all the volunteers for their hard work and look forward to continuing to support Landcare in the Top End.

Kind regards,
Natasha Fyles
